

Safety Group 430 Health & Safety Inspection Request

Safety Group 430 provides a yearly health & safety inspection for all of its members insurable “roof tops” to assist in identifying, reducing and/or eliminating potential hazards in the workplace that could lead to employee injuries. Eliminating these potential hazards can also reduce or eliminate claims saving you premium dollars and lost work time by your employees. SG 430 health & safety inspections cover vehicle service areas, body shops, parts departments, showrooms, etc. Observations made during the inspection are based on OSHA standards (the law) and other generally accepted safety standards such as ANSI and NFPA. We can also assist in arranging free health & safety training through our partnership with the New York State Insurance Fund.

To request a courtesy safety inspection by one of our Safety Group 430 Field Representatives, please complete the form below and **fax back to 518-434-1757, attention: Erik Michelsen, Safety/Loss Control Specialist. Or, you may email it to Erik at erik@nysada.com, or Dan, dan@nysada.com.**
