

REQUEST FOR QUOTE !

Most dealers' workers' compensation insurance policies renew on December 31st. **Safety Group 430 has great news!!!** The New York State Insurance Fund and Safety Group 430 distributed a group dividend last year to existing members in excess of **\$11.4 million** for the 2016 Policy Year audited. This dividend makes the total amount paid to members since Safety Group 430's inception in excess of **\$283 million**. So, just a few minutes of your time is all that it takes to request a quote to make an informed decision to become part of financially strong and successful dealers' works compensation program. Other programs and insurance companies have come and gone, either left the workers compensation system or left dealers out in the cold. Safety Group 430 and the NYS Insurance Fund has been a strong and steady force for dealers through the best and worst of economic times, in the most challenging of market conditions when others chose not to over the past 67 years!

A few reasons to consider Safety Group 430:

A Dealer (only) Workers Compensation Program, Managed By Dealers!!!

\$283 million paid in dividends, returned to dealers since 1949

67+ years as the largest fully insured dealer workers comp program in NYS

Backed by NYS; Financially stable

Annual health & safety inspections for every insurable "rooftop"

Safety equipment items distributed for employee safety

Please contact Jeff Scardino, Insurance Director, ext. 321, or jeff@nysada.com

Yes, I would like to receive a quote for my dealership's workers' compensation insurance. Please have someone contact me for the necessary information needed to generate a quote.
